RESIDENTIAL SALES STUDIES

12 Month _{Vs} 24 Month

12 Month Residential Sales Study

In periods of declining values, this study is preferred because it is a snapshot of the current market and favors the taxpayer.

For 2012 the study period is October 1, 2010 to September 30, 2011

24 Month Residential Sales Study

In periods of appreciating values, this study is preferred because It considers older sales that tend to buffer the increase that would be present in a 12 month study and favors the taxpayer.

For 2012, the study period is October 1, 2009 to September 30, 2011

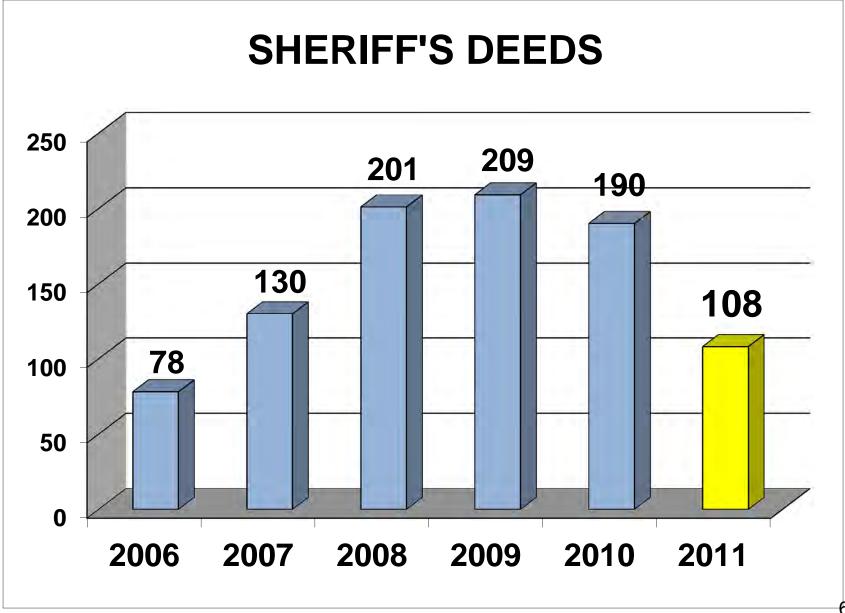

Oakland County equalizes 52 communities

A 12 month study and a 24 month study were performed for each community. The study that favors the taxpayer has been recommended to the State Tax Commission.

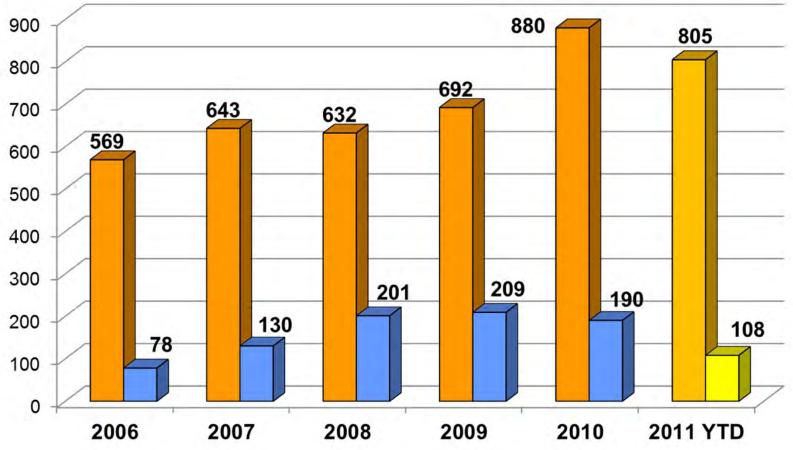

Due to appreciating values, the City of Novi will be one of 18 Oakland County communities using a 24 month residential sales study.

Under the 12 month study, the residential move would have been +2.79%

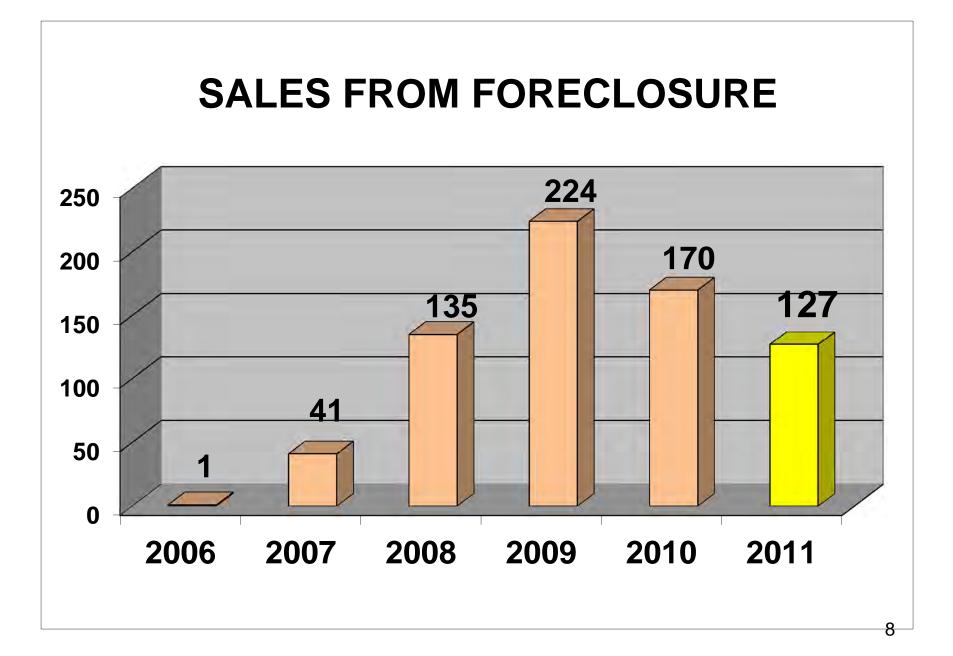

Under the 24 month study, the 2012 residential move is +1.20%
