Agenda Item 2
April 23, 2012

SUBJECT: Referral to the Planning Commission for Public Hearing and recommendation back to the City Council of a Zoning Ordinance Text Amendment for modification of the standards in the OST, Planned Office Service Technology District, Retail Service Overlay provisions, to expand the areas where the Retail Service Overlay is permitted.

SUBMITTING DEPARTMENT: Community Development Department - Planning ^{Brews}

CITY MANAGER APPROVAL: 

BACKGROUND INFORMATION:

The City Council recently approved the creation of the Retail Service Overlay ordinance language which permits a limited amount of retail and personal service uses for the areas near Grand River Avenue and Beck Road. The area identified for additional uses had been identified as Office, Research, Development and Technology with Retail Service Overlay, on the City's Future Land Use Map. Uses permitted (subject to approval of a Special Land Use Permit by the Planning Commission) include generally recognized retail businesses and personal service establishments permitted in the B-1, Local Business District, and restaurants (excluding drive-in and drive-through restaurants).

As a part of the approval of the new Retail Service Overlay ordinance language, the City Council expressed an interest in expanding the areas within the OST District where an applicant may utilize these new provisions. Planning staff and the City Attorney's office explored various options and offer the attached proposed text amendment that was shared in the attached April 4, 2012 memo from staff.

The proposed amendment would maintain the provisions of the Retail Service Overlay allowing the uses listed in Section 2302A.1 on properties designated Office, Research, Development and Technology with Retail Service Overlay on the Future Land Use Map but would also allow applicants to apply the Retail Service Overlay to properties that meet the following criteria:

- The zoning of the property is OST, Planned Office Service Technology District;
- The property is located north of Twelve Mile Road and east of M-5; and
- The property is located at the intersection of two major thoroughfares, or at the intersection of a major thoroughfare and a non-residential collector street, and at least 500 feet from a residential zoned district. (A major thoroughfare is defined in the Zoning Ordinance as "an arterial street which is designated in the City of Novi Master Plan Thoroughfare Plan as a major arterial, arterial or minor arterial.")

In addition, for those properties not designated as Office, Research, Development and Technology with Retail Service Overlay on the Future Land Use Map, the draft ordinance indicates the Planning Commission would be asked to make a finding that the application of the Retail Service Overlay would be in keeping with the stated intent of the Retail Service Overlay and the OST District and compatible with the surrounding developments.

Size limitations for any proposed retail, service or restaurant uses are suggested in the ordinance to help insure that the character of the district is maintained for the proposed additional areas. Pedestrian and vehicular access is also proposed to be included in the ordinance to encourage the use of the retail, service and restaurant uses from the adjacent office park. Outside plaza and landscaping features are encouraged to provide an attractive place for outside dining associated with restaurant uses.

The attached map highlights those properties that would be eligible for application of the Retail Service Overlay under the proposed text amendment.

Staff has shared the proposed draft language with the primary property owner in the subject area, and has not heard back as of the date of writing this communication. If the City Council approves this matter for referral to the Planning Commission to consider the proposed ordinance amendment and hold a public hearing, staff will insure that the primary property owner in this area has adequate time to comment on the proposed ordinance language.

RECOMMENDED ACTION:

To: Mayor & City Council Members

As requested for future City Council discussion and referral to PE.

Recently, the City Council approved the creation of the Retail Service Overlay which permitted a limited amount of retail and personal service uses in those areas identified as Office, Research, Development and Technology with Retail Service Overlay on the City's Future Land Use Map. Uses permitted (subject to approval of a Special Land Use Permit by the Planning Commission) include generally recognized retail businesses and personal service establishments permitted in the B-1, Local Business District and restaurants (excluding drive-ins and drive-throughs).

* As part of the approval of the new Retail Service Overlay, the City Council expressed an interest in expanding the areas within the OST District where an applicant may utilize these new provisions. Staff has examined the various options and offers the attached proposed text amendment.

First blush of criteria

The proposed amendment would maintain the provisions of the Retail Service Overlay allowing the uses listed in Section 2302A.1 on properties designated Office, Research, Development and Technology with Retail Service Overlay on the Future Land Use Map but would also allow applicants to apply the Retail Service Overlay to properties that meet the following criteria:

- The zoning of the property is OST, Planned Office Service Technology District;
- The property is located north of Twelve Mile Road and east of M-5; and
- The property is located at the intersection of two major thoroughfares, or at the intersection of a major thoroughfare and a non-residential collector street, and at least 500 feet from a residential zoned district. (A major thoroughfare is defined in the Zoning Ordinance as "an arterial street which is designated in the City of Novi Master Plan Thoroughfare Plan as a major arterial, arterial or minor arterial.")

In addition, for those properties not designated as Office, Research, Development and Technology with Retail Service Overlay on the Future Land Use Map, the Planning Commission would be asked to make a finding that the application of the Retail Service Overlay would be in keeping with the stated intent of the Retail Service Overlay and the OST District and compatible with the surrounding developments.

Size limitations for any proposed retail, service or restaurant uses are suggested in the ordinance to help insure that the character of the district is maintained for the

proposed additional areas. Pedestrian and vehicular access is also proposed to be included in the ordinance to encourage the use of the retail, service and restaurant uses from the adjacent office park. Outside plaza and landscaping features are encouraged to provide an attractive place for outside dining associated with restaurant uses.

The attached map highlights those properties that would be eligible for application of the Retail Service Overlay under the proposed text amendment.
