

CITY of NOVI CITY COUNCIL

**Agenda Item G
December 17, 2013**

SUBJECT: Approval of traffic control orders 13-53 through 13-75 for traffic control signs within the western portion of Section 25.

SUBMITTING DEPARTMENT: Department of Public Services, Engineering Division *R14* *BTC*

CITY MANAGER APPROVAL: *[Signature]*

BACKGROUND INFORMATION:

The existing signage in the western half of Section 25, containing a portion of the Village Oaks Neighborhood (including Heatherbrae, Heatherlea, Heatherwyke, Heatherwoode, and a portion of Fairfield Farms Subdivisions) and Willowbrook Estates Subdivision No. 2, was reviewed as part of a multi-year plan to replace all traffic control signs throughout the City to meet new Federal requirements. The new requirements pertain to the visibility of traffic signs and more specifically the color, size, and retroreflectivity of the sign. Retroreflectivity is the ability of a surface to return light back from its sources (i.e., signs and pavement markings reflecting light from the headlights back to the driver's eye). The FY13-14 budget included \$20,000 for the purchase of sign material for the annual sign replacement program.

An inspection by City staff noted that many of the traffic signs in this portion of the City have very low retroreflectivity and that several intersections lack any stop or yield signs to assign the right-of-way at the intersections. Additionally, there are several existing stop or yield signs in place that do not have traffic control orders on file. Traffic control orders are required under the Uniform Traffic Code to enforce traffic control signs that have been installed. The attached summarizes the traffic control orders for the new and replacement stop and yield signs that are to be installed based on staff's review

The Willowbrook Estates Homeowners Association and the Village Oaks Common Areas Association have been notified of the pending sign replacement work. The installation of the new traffic control signs will be scheduled and completed using DPS Field Operations staff in the next several months.

RECOMMENDED ACTION: Approval of traffic control orders 13-53 through 13-75 for traffic control signs within the western portion of Section 25.
