SUBMITTING DEPARTMENT:

CITY MANAGER APPROVAL: *[Signature]*

BACKGROUND INFORMATION:

This proposed ordinance has been referred to the City Council by the Council's Ordinance Review Committee (ORC). Following inquiries from the public, Novi Fire Department staff and City administration was tasked with researching allowing so-called "prescribed burns" in the City of Novi. A prescribed burn involves burning ground cover or invasive or undesirable plant species and materials in compliance with a plan (or "prescription") to ensure safe conduct of the burn and appropriate review by the fire department.

The City has adopted the National Fire Prevention Code, which does not permit prescribed burns in most situations in the City, or at least does not specifically regulate them. Novi's Fire Department is typically not authorized to prescribe burns except in limited instances. Review of the surrounding communities revealed a number that have permitted prescribed burns with appropriate permits, plans, and oversight.

The attached ordinance amends Subsection 307 of the Fire Prevention Code to specifically refer to prescribed burns; to define a prescribed burn; to establish an application and review process (including review fees); to establish insurance and cost recovery requirements; and to provide notice to adjacent property owners.

The ORC has recommended the ordinance to the full City Council.

RECOMMENDED ACTION: Introduction of Ordinance 16-99.17, in order to amend the City of Novi Code of Ordinances, at Chapter 15, Fire Prevention and Protection, Article 2, Fire Prevention Code, Section 15-17, Amendments, Subsection 307, Open Burning and Recreational Fire, in order to add a provision relating to prescribed burns. **FIRST READING**
