SUBJECT:

Acceptance of a streambank maintenance easement for a property along Bishop Creek as part of the streambank restoration project (Parcel 50-22-25-126-032).

SUBMITTING DEPARTMENT: Department of Public Services, Engineering Division GDM

CITY MANAGER APPROVAL: 

BACKGROUND INFORMATION:

The Bishop Creek and Ingersol Creek streambank project involves the restoration and stabilization of multiple locations along Bishop Creek south of Ten Mile and along Ingersol Creek between Bishop Creek and Meadowbrook Road where streambank erosion has occurred. The 2013 Stormwater Master Plan identified these areas needing repair. This project will include the acquisition of an estimated fourteen easements needed to complete the work behind the houses along the creek. Enclosed is one proposed easement for streambank maintenance. The easement consists of a twenty-foot-wide easement that overlaps the existing private easement.

Spalding DeDecker, the City’s engineering consultant, is assisting with the design and construction engineering services and the easement acquisitions for this project.

This project is expected to be completed in the late fall 2017.

The proposed easement has been favorably reviewed by the City Attorney (Beth Saarela’s July 5, 2017) and is recommended for approval.

RECOMMENDED ACTION:
