City of Novi Non-motorized Plan - Overview Map

Neighborhood Connector Routes
- Provide convenient access to local destinations
- Connect residential areas to schools, parks, and community centers
- Enhance walkability and bikeability in neighborhoods

The City of Novi Non-motorized Plan aims to create a network of non-motorized routes that support a healthy, active lifestyle for all residents. The plan focuses on improving the accessibility of parks, schools, and community centers, as well as promoting sustainable transportation options. The Neighborhood Connector Routes are a key component of this plan, providing essential connections that enhance the overall quality of life in the City of Novi.
