### Long-Range Financial Plan – Multi-Year Budget 2017-2020

The City of Novi has long recognized the need for planning to provide quality services to its residents. This is evident in the work performed by the elected officials, City staff and various committees and boards. The City has conducted many studies and has developed plans, policies and procedures that have guided the City in making sound decisions regarding infrastructure and services.

The City has focused on long-term financial planning since the 1990's and as a result, continues its strong financial position. Since 2004 the City has prepared a three-year budget, going beyond the requirement for adoption of an annual budget. The City of Novi continues its strong financial position as a result of long-term financial planning; maintaining responsible fund balances in conformance with GFOA recommended practices and low debt obligations, as well as complying with the City's own fund balance policies.

Under Michigan law, the maximum debt Novi can issue is \$397,313,659. The City's current debt applicable to this limit is \$23,235,000 or 5.8% of the amount allowed. The City had twelve debt issues in 1999 and currently has one debt issue (excluding the debt reported in the enterprise funds and special assessment bonds). In addition to paying down debt thru annual debt services payments, the City has taken advantage of both the decline in interest rates and its excellent credit rating (AAA) to obtain more favorable rates through refinancing – lowering interest expenditures and paying off debt sooner than anticipated.

The City's long-range financial plans, which are defined throughout this budget document, include focuses and investments on the following:

- Investing in public safety; including increasing the number of police officers and fire protection officers,
- Investing in roads, intersections & signals, and sidewalks & pathways,
- Improvements to existing parks and cultural services,
- Increasing community engagement (residential, commercial, and neighboring communities).
- Acquiring and developing land

These long range financial plans link to the entity's strategic goals, which have been mentioned in the Budget Overview section, and are illustrated in the matrix on the next page:

r	Stratogic Goals	Long Rongo Financial Diana
	Strategic Goals	Long-Range Financial Plans
N	Strategic Goals         Nurture public services that residents want and value.         Operate a world-class and sustainable local government.         Value and build a desirable and vibrant community for residents and businesses alike now and into the future.         Invest properly in being a Safe Community at all times for all people.	Work with Road Commission to develop a plan of improvements for 10 Mile Road corridor that improves traffic flow but respects residential areas. expand local senior transportation to include more hours, days, special event, and additional population access. Evaluate need for additional senior citizen housing and determine if Novi will continue to provide these types of facilities or leave to private companies. Upgrade pathways along south side of 10 Mile Road from Haggerty to Napier to provide ITC Trail- like experience. Beck Road.
0		Create a searchable online database of all City expenditures. Eliminate Lakeshore Park entry fees. Establish renewable energy goals for 2020 and 2025 (evaluate City building strategies and equipment capabilities, to reduce fossil fuel consumption where practical within Novi government operations. support education and other efforts to help residents reduce their carbon footprint.) Analyze land uses to identify which developments will generate the most taxes and encourage those through zoning changes and incentives.
V	community for residents and businesses	Create a plan for upgrading all of our major commercial corridors with streetlights, landscaping, etc. Encourage Development of Adell Property. Revamp Drain Millage to expand purpose to include funding preservation of natural areas and acquisition of park land. Acquire park land north of I- 96 suitable for athletic fields.
I	Invest properly in being a Safe Community at all times for all people.	Develop a plan to add street lights at major intersections across the City over the next 5 years. Evaluate alternative locations for Fire Stations #3 (Nine Mile and RR tracks). Relieve traffic congestion in the Novi Road I-96 area (implement recommendations from Transportation Master Plan of 2015). Make improvements to top 12 high crash intersections over 5 years (signals, streetlights, etc.)

The 2018-19 and 2019-20 budgets include the following items related to the goals and plans above:

- \$18.6 million investment in roads, pathways, sidewalks and intersections
- \$1.9 million investment in water and sewer infrastructure
- \$2.4 million investment in storm sewer and drainage
- \$9.2 million investment in parks, recreation, and cultural services capital projects
- \$5.1 million investment in machinery, equipment, and technology, including \$2.1 million investment in replacing meters for the advanced metering infrastructure project in the water and sewer fund
- Hiring an additional full-time staff for parks maintenance

The annual 2017-18 budget is to be adopted by Council in May. The Council will also acknowledge the multi-year budget in the form of a resolution. The City prepares the multi-year projection based on the best data available at the time. The research includes obtaining data from the County and the State of Michigan. This future outlook allows the City to plan rather than react to anticipated financial conditions. Significant revenue and expenditure assumptions for the 2017/2018 fiscal year budget and the subsequent two years are included at the end of this section.

### **General Fund**

#### **General Fund**

The General Fund is used to account for all financial resources traditionally associated with City government, except those required to be accounted for in another fund. The General Fund includes police, fire, planning, engineering, building inspection, neighborhood services, public works, assessing, and internal services such as information technology and finance. The two primary sources of revenue for this fund are general property taxes and State Shared Revenue. In addition, the General Fund also receives revenue from licenses and permits, grants, fines and forfeitures and interest on investments.

\* Total Appropriations include service improvements, capital outlay, vehicles, and capital improvements. The level of such expenditures is dictated by available funds from accumulated fund balance and anticipated revenue above annual expenditures in conjunction with the targeted fund balance.

### **Special Revenue Funds**

#### Major Street Fund

The Major Street Fund's purpose is to account for expenditures associated with the construction and maintenance needs of the Major Street portion (as defined by State Act 51) of the City's street network. Of the 201 total centerline miles that make up the City of Novi road network, the City has 43 centerline miles of Major streets. Financing is primarily provided by the City's share of State gas and weight taxes.

#### **Municipal Street Fund**

The Municipal Street Fund is used to enhance the Major and Local Street Funds, and to provide matching funds for County roads. This fund accounts for a City Charter authorized property tax millage to supplement the Major and Local Street Funds that have limited resources due to the reliance on the State gas and weight tax.

#### Public Safety Fund

The revenue for this fund is generated from property taxes in accordance with a special City Charter millage that was authorized to supplement the operations of the police and fire departments, including payment for personnel-related expenditures and for the purchase of fire trucks, apparatus and equipment.

The Public Safety Fund has historically been shown as special revenue fund but this fund will be closed as of FY 2016-17 due to changes in the accounting rules. Going forward the net revenues generated from the dedicated property tax levy will be recorded directly within the General Fund where the operations of the police and fire departments are budgeted.

#### Library Fund

Novi Public Library provides the resources and programs to support the educational, cultural, informational and recreational needs of its diverse community. The Library supports intellectual freedom and access to information resources for all, while maintaining the privacy of its patrons and providing a safe and secure environment. The Library is funded primarily from property taxes in accordance with a special City Charter millage.

#### Library Contribution Fund

In May 2004, the City of Novi's Library received a generous gift of \$1,000,000 from Charles and Myrtle Walker for use in the replacement or expansion of the then existing Library building. The Library Board also entered into a Library Building Fund Gift Agreement with the Walker family to encourage additional donations. The library has continued to receive donations. As of January 1, 2014, the restrictions on the use of these funds expired.

### **Capital Project Funds**

#### **Special Assessment Revolving Fund**

This fund is used to account for the construction of capital assets funded in whole or part by long-term special assessment debt. The city has self-funded previous projects and has elected to maintain the cumulative interest as well as the initial General Fund contribution in this fund. All future uses of this fund will be determined as part of the city's annual capital improvement plan (CIP plan).

#### Capital Improvement Program (CIP) Fund

The Capital Improvement Program (CIP) Fund's purpose is to track activity related to the voter approved CIP millage which was passed on August 2, 2016. This millage is not to exceed the annual rate of 1.0 mills for a period of 10 years. The uses of the CIP millage funds include but are not limited to parks and facilities, land acquisition, pathways, and apparatus (such as fire truck or heavy equipment). These funds shall not be used for operations or payroll. The first levy for this millage is July 1, 2017.

### **Permanent Fund**

#### Drain Perpetual Maintenance Fund

A citizen's committee has been established to oversee the building and maintenance of the drain system. This fund was initially created with allocations from the Drain Fund. Additional revenue has come from tap fees for properties connecting to regional systems. The intent is to build an investment base in which earnings will eventually cover the cost of maintaining the system and reduce or eliminate the need for the Drain Fund millage.

### Water and Sewer Fund

The City of Novi takes pride in providing safe and efficient water distribution and sanitary sewage collection systems. The City has taken steps to further improve infrastructure, as recommended by the Water Distribution Study and Master Plan Update, and the sanitary sewer Capacity, Management, Operations and Maintenance Program (CMOM). These programs have allowed the City to fully examine the current operation of the City's utility-based infrastructure and provide recommendations for improvements to the water distribution and sanitary sewage collection systems.

### Senior Housing Fund

Meadowbrook Commons is an older adult housing community owned by the City of Novi and managed by a contractual management company. Financing for this project was provided through bonds issued by the Building Authority. The total construction cost was \$12.5 million and all operational expenses and the bond debt retirement are covered by rental revenue.

## Fund Balance

Fund Balance is the difference between assets and liabilities in a governmental fund. The governmental funds account for the City's bread-and-butter, are typically tax-supported activities of a government (as opposed to enterprise funds, which are self-supporting, business-like activities), and include the following:

- General Fund where a government accounts for everything not reported in another fund
- Special Revenue Funds for reporting specific sources that are limited to being used for a particular purpose
- Debt Service Funds which account for the repayment of debt
- Capital Project Funds which track the accumulation and use of resources for construction, acquiring, and rehabilitating capital assets (such as buildings and roads)
- Permanent Funds where a government reports principal amounts that re restricted to being invested to produce income but cannot be spent

## GASB 54

GASB Statement No. 54 creates five components of fund balance, though not every government or governmental fund will report all components. This approach is intended to provide users consistent and understandable information about a fund's net resources. The five components are:

## Nonspendable Fund Balance

\*cannot be spent (legally restricted or in unspendable form)

- Amounts that cannot be spent due to form; for example, inventories and prepaid amounts. Also, long-term loan and notes receivables, and property held for resale would be reported here unless the proceeds are restricted, committed or assigned.
- Amounts that must be maintained intact legally or contractually (corpus or principal of a permanent fund)

## Restricted Fund Balance

\*externally imposed (law, creditor, bond covenant)

 Amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation. This is the same definition used by GASB Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, for restricted net assets.

## **Committed Fund Balance**

\*constraints approved by Council

- Amounts constrained for a specific purpose by a government using its highest level of decision-making authority. It would require action by the same group to remove or change the constraints placed on the resources.
- Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent period.

## Assigned Fund Balance

\*constrained by intent by City Council, or by the City Manager, or by a body/person to which City Council designates the authority

- For all governmental funds other than the general fund, any remaining positive amounts not classified as non-spendable, restricted or committed.
- For the general fund, amounts constrained for the intent to be used for a specific purpose by a governing board or a body or official that has been delegated authority to assign amounts. Amount reported as assigned should not result in a deficit in unassigned fund balance.

## **Unassigned Fund Balance**

\*available to spend, unrestricted

- For the general fund, amounts not classified as nonspendable, restricted, committed or assigned. The general fund is the only fund that would report a positive amount in unassigned fund balance.
- For all governmental funds other than the general fund, amount expended in excess of resources that are nonspendable, restricted, committed or assigned (a residual deficit). In determining a residual deficit, no amount should be reported as assigned.

### All Funds FY 2017-18 Budget

The following governmental funds are anticipated to have significant changes in fund balance for FY 2017-18 (increase or decrease more than 10%):

### **Special Revenue Funds**

The Local Street Fund is projected to use approximately \$99,000 of fund balance in FY 2017-18. These funds will be used for future local street projects throughout the City which are listed in the capital improvement program.

The Municipal Street Fund is projected to use approximately \$480,000 of fund balance in FY 2017-18. These funds will be used for future municipal street projects throughout the City which are listed in the capital improvement program.

The Forfeiture Fund is projected to use approximately \$250,000 of fund balance in FY 2017-18 to fund \$307,000 in capital expenditures.

The Library Fund is projected to use approximately \$190.000 of fund balance in FY 2017-18 to help fund operations and spend \$133,100 towards capital.

### **Capital Project Funds**

The Gun Range Facility Fund is projected to decrease fund balance by \$219,000 to help fund the Gun Range Building Addition project in the amount of \$330,000.

### **Permanent Fund**

The Drain Perpetual Maintenance Fund is projected to use approximately \$2,242,000 of fund balance in FY 2017-18 to help fund capital projects within the Drain Fund which is the purpose of this fund.

## Major Revenue Sources, Assumptions, and Trends

Revenue forecasting is a standard practice for the City of Novi. Individual revenue line-items are reviewed for their historical trends in order to project revenues over the next three years. The forecast is also based on economic factors, as well as information provided by the State and County. In order to be prepared for unexpected events and lower than anticipated revenues or higher than anticipated expenditures, the City budgets conservatively. The following are summaries of revenue sources including underlying assumptions and significant trends.

## **Property Tax Revenue**

The maximum allowable millage rates are used for all funds except the Drain Fund. Taxable value projections are as of March 7, 2017. The 2017 taxable value increased approximately \$64,234,000 for net new construction. The future property values for 2018 and beyond include approximately \$92,000,000 in cumulative net new construction. Penalties and interest are based on historical collections. Inflation for the 2017 tax year was 0.9% but due to new construction, the City anticipates an overall net increase (see loss of personal property taxes discussed below) in revenue of 3.6%. The City closed the Public Safety Fund as of June 30, 2017 and the dedicated public safety millage is recorded directly in the General Fund rather than a transfer in.

The proposed millage rate is 10.5376 mills, increased from 9.95, due to the new 1.0 voted mill for capital improvements offset by expiring voted debt mills. A significant factor that has been taken into account for the future year's taxable value is the expected decrease in the personal property tax, per the new State of Michigan law (SB 10) that erases the personal property tax on the industrial property and other businesses with equipment less than \$40,000.

## Licenses, Permits & Charges for Services

This revenue includes fees for various services and licenses. Revenues also include estimated fees paid by developers and contractors for the plan review, inspection of commercial, industrial and residential construction which partially covers the cost of the Community Development Department. This revenue is difficult to project since it is directly related to construction activity. The City's building activity is projected to remain strong with a 1% increase in most fees projected each for the next fiscal years. The remaining revenue relates to liquor licenses and other fees collected by the Clerks Department.

### **Transfers In**

The transfers into the special revenue funds represent transfers between the three street funds to cover construction costs as detailed in the six-year CIP plan. The primary source of the transfers is a dedicated road millage in the Municipal Street Fund. The new Capital Improvement Fund has transfers from various enterprise funds to cover their share of the costs for the department of public works building improvement project as well as a transfer from the Special Assessment Revolving Fund to fund the Crescent Blvd (ring road) project.

#### State Sources

**State Revenue Sharing** The State Shared Revenue program distributes sales tax collected by the State of Michigan to local governments as unrestricted revenues on a per capita basis (2010 Census population for Novi was 55,224). The distribution of funds is authorized by the State Revenue Sharing Act, Public Act 140 of 1971, as amended (MCL 141.901). For fiscal year (FY) 2016, the legislature established the City, Village, and Township Revenue Sharing (CVTRS) program (a simplified version of the Economic Vitality Incentive Program (EVIP)). Each eligible local unit must meet all of the requirements of Accountability and Transparency in order to receive the full CVTRS payments. A Consolidation of Services Plan and an Unfunded Accrued Liability Plan are not required under the CVTRS program. The City estimates a 2% increase in overall revenue sharing in fiscal year 17/18 and a 1% increase in 18/19 and 19/20.

**MDOT Act 51** The City receives monthly payments from the State of Michigan, Department of Transportation for their share of the motor fuels taxes collected that are earmarked specifically for use on the roads. The distribution is based on the number of miles of road within the city. The City anticipates a onetime 7.5% increase in 17/18 and an annual increase in this revenue of 1% in 18/19 and 19/20.

#### Interest on Investments

This revenue is from investing available cash balances based on cash flow forecasts, capital reserves, and fund balance reserves. Interest rates are budgeted to increase over the next few years resulting in greater overall earnings however this will be offset by lower cash balances due significant planned investments in capital projects. The net result is little or no growth in overall earnings.

### Program Revenue/Older Adult Program Revenue

This revenue source is from the many programs offered by the Parks, Recreation, and Cultural Services department and Ice Arena. The Parks, Recreation, and Cultural Services Fund have approximately half its revenue funded from a dedicated property tax levy and the balance funded by program revenue. Program revenue is anticipated to remain flat for all future years.

### **Operating Revenue**

This revenue represents charges to customers for water and sewer usage as well as fees collected at the ice arena and rents collected at the senior housing facility. Operating revenue in the Water and Sewer Fund is anticipated to increase by 9% in 17/18 (primarily due to increased consumption) and future annual increases of 1-2% annually based on projections and anticipated new customers. Ice arena and senior housing revenues are anticipating 1-2% annual inflationary increases.

The revenues discussed above are the major revenue categories as identified by the City and make up the majority of the total revenues of all appropriated funds, including enterprise funds. The schedule on the following page summarizes total revenue for all fund types of the City.

\*\* Headlee rollback has been assumed for fiscal years 2018 and 2019

Additional revenue trends for property taxes, revenue sharing, MDOT Act 51 and overall revenue by fund is available in the Budget Overview section.

## **Expenditure Analysis**

### **Personnel Services**

The City of Novi budgets for full employment, maintaining a strong staff position control and budgeting system. Any additional cost savings as a result of vacancies, or positions filled at lower than budgeted amounts increases the fund balance, and is used in planning for the subsequent year's budget.

Personnel cost increases and decreases are pursuant to each of the current collective bargaining agreements. An increase of 0-2.5% each year, using 2016-17 as base year, is assumed based on total personnel costs. Defined benefit pension contributions increased 25.7% for 17/18 and are assumed to increase by approximately 8% annually for the subsequent two years (increase in required contributions primarily due to changes in MERS assumptions along with unfavorable investment returns). Employee health insurance costs are assumed to increase 2.5% for 17/18 and at 7% annually for the subsequent two years. The personnel assumptions are based on the number of staff as presented in the Departmental Information - Personnel Summary section for the fiscal year 2017-18.

### Supplies, Maintenance, and Other Services and Charges

Most expenditures range from 0%-3% increase; certain maintenance items increased based on historical median rate (i.e. road maintenance items). Liability and property and workers compensation insurance are assumed to increase 2-9% annually.

### Capital Outlay, Non-Recurring Items, & Technology

The Capital Outlay and/or non-recurring items are based on actual budget requests from departments. The City of Novi has a track record of replacing and maintaining assets, which not unlike businesses, allows the City flexibility in deferring capital purchases for a period of time during financially tight years.

Certain programs, like PC replacement, are included in the 2017-18 budget and while department allocation may change, total estimated replacement remains the same plus inflationary adjustment of 3%.

### **Capital Improvements**

The General, Major Street, Local Street, Municipal Street, Drain, Parks, Recreation and Cultural Services, PEG Cable, and Forfeiture Funds reflect anticipated expenditures for each year based on the Capital Improvement Program.
