A Total Coliform Bacteria sampling and analysis has been completed with results indicating that **No Coliform Bacteria** is present in the Publicly Owned Water Supply System. The Publicly Owned Water Supply system is in compliance with the EPA Drinking Water Standards.

Therefore, the **Boil Water Advisory** that was issued on September 30, 2025 **IS TERMINATED**.

The Boil Water Advisory was issued as a precautionary measure as a result of a Great Lakes Water Authority Transmission Main break.

If you have any questions or concerns, please contact the City of Novi Water and Sewer Division at 248-735-5661.

We appreciate the understanding of our residents and businesses.
